

BPCA Subscriptions

2010

Subscriptions are based on UK turnover, which is to be declared at the time of application and, thereafter, within the annual returns. Turnover includes SERVICES – including general pest control, bird control and proofing, fly screening, EFK maintenance and fumigation (space and soil), and PRODUCT – sales of industrial, public health and domestic pesticides (ready-to-use, concentrate formulations and raw materials), including fumigant gases and related pest control equipment.

Any information on turnover will be kept confidential and is only used for the levying of subscriptions. **IT WILL NOT IN ANY CIRCUMSTANCES BE DISCLOSED TO ANYONE OTHER THAN THE ASSOCIATION STAFF.**

Applicants, other than for the Provisional Scheme, are required to pay a processing fee on application, details of which are provided in the table below. **Please note that on the assumption that your application is progressed successfully, the processing fee will be offset against your first period's subscription.** Those joining the Provisional Scheme are requested to pay a full year's subscription on application.
